

Catarrh

COLD IN THE HEAD

relieved instantly by one application of

Birney's Catarrh Powder

Rev. Father Charles, S. J., to the Rev. Bishop of Colorado, Colo., writes:

Dear Sir:—I cannot say enough for your powder. It has cured me of an annoying attack of catarrh when nothing else would help me. I am delighted with it. All my friends to whom I administered it, are quite satisfied with it. The powder is very fine and does not irritate the throat. It is a great relief to the nose and throat. I will do nothing to speak a good word for the remedy to help others who are suffering.

M. J. DeWitt, Catholicism U. S. Appeals' Store, Chicago, writes:

Dear Sir:—Being almost entirely deaf for a number of years, and getting on my feet, I have been unable to read much. I tried, and was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. I have received my hearing entirely, and I can now hear a watch tick plainly, it being held in inches from my ear. I think it is a positive cure for deafness and have recommended it to many of my friends and can say I have never heard of a case where it has failed to relieve.

An honest Confession.

If we were asked the reason why "VIAGI" performs such wonderful cures, we would be honest, and say, "We don't know." Ask a scientist why an apple invariably falls downward, and he would say it was due to the law of

Gravitation.

That is about all he could tell you. It is no more natural for bodies to gravitate toward the center of the earth than it is for "VIAGI" to cure the diseases peculiar to women. It is not a drug, but a food, which nourishes and strengthens the affected parts, thereby enabling nature to throw off the disease. Our Health Book sent free.

IT WAS DEFEATED.

WASHINGTON, 4:45 p. m.—The vote at the end of the first roll call stood: Yeas 180; nays 45. More than two-thirds voted to pass over the veto.

The Republicans did not vote. The second call will probably change the result.

Representative Tracey and the anti-silver Democrats also refused to vote. This leaves members opposed to the veto as the only ones voting, with a few scattering votes favorable to the veto.

4:50 p. m.—On the second call of the roll the Republicans began voting in the negative.

4:56 p. m.—The second vote on the passage of the Bland bill over the veto, was: Yeas, 144; nays, 116; not the necessary two-thirds.

Sneaker Crisp announced amid applause from the anti-silver men that Bland's motion was lost and the house at 5 o'clock adjourned.

SANTA FE RECEIVERS.

Empowered to Pay Interest on Bonds of Frisco Road.

St. Louis, April 4.—Judge Caldwell of the United States circuit court today filed an order with the clerk empowering the receivers to pay the interest on several series of bonds issued by the Frisco road.

The first are known as the A B and C bonds, which amount to \$2,063,500, and are a first lien on the section of the road between Pacific and Seneca, Mo.

The second series are the Missouri and Western bonds, amounting to \$1,054,000, and being a first lien on the road between Pierce City, Mo., and Oswego, Kansas.

The third series are the St. Louis, Wichita & Western bonds amounting to \$2,000,000, and being a first lien on the road between Oswego and Wichita, Kan.

The fourth series are known as first mortgage trust bonds of 1893, amounting to \$1,000,000, and resting as a mortgage on the road from Monett to Fayetteville, Mo., and from Carl Junction to Girard, Missouri.

The last bonds are the equipment sixes of 1884. All but the \$27,000 of this issue of bonds have been retired and cancelled. The balance, principal and interest, fell due on the first of the present month.

Judge Caldwell authorized the receivers to pay the \$27,000 with interest, and to pay the interest on the outstanding bond issues.

RIOTERS GONE WILD.

The Frick Company Removes All Its Men From the Mines.

An electric car on the New Haven & Leisenring road was attacked last night by a mob of drunken foreigners, but none of the passengers were injured.

The telephone line leading to the works now in operation, or the mine dymitted, the Frick company has removed all the men and the live stock employed in the mine. Orders have been issued to the tenants of company houses at Trotter at Leisenring Nos. 1, 2 and 3 to vacate immediately. If the strikers refuse the sheriff will be called to eject them.

ALVERTON, Pa., April 4.—The coke drawers at the Denny coke plant situated near here were attacked by a riotous mob of sixty Hungarian women armed with revolvers, clubs and pokers. The men hastily retreated followed by the triumphant mob. Men were knocked down, dinner buckets and coke forks were thrown into the ovens.

Many of the laborers were ejected and a man, Pale, was fatally wounded. Sheriff McCann arrived at the scene a short time later and swore in a number of deputies. LEADVILLE, Colo., April 4.—A dynamite bomb was found today in the court house. It was eight inches long and two and one-half inches in diameter. The fuse had been broken when it was nearly burned off, and this fact alone prevented an explosion. The discovery caused intense excitement.

RODE A BELLOWING BULL.

Evanton's City Marshal Goes Flying Down a Street on a Sportive Animal.

CHICAGO, April 4.—A bull raised wild excitement in Evanston last evening. He broke out of a pasture and proceeded to parade the streets, testifying in a deep bellowing voice, that it was his day out and he was glad of it. Officer Smith, who composes a portion of Evanston's police force, thought to abash the bull by waving his arms and yelling "Hi there! Hi there!"

The bull made a wild plunge at Smith and the latter in some way dodging the animal's horns, managed to clutch its neck and the bull went charging down the street with exactly one-tenth of Evanston's police force hanging on for dear life.

How Smith managed to cling to the animal he could not tell himself, but he did hang on and was carried several blocks. The bull finally dumped him in a mud puddle uninjured but scared nearly to death.

The entire police force of Evanston turned out to rescue Smith, and finally killed the bull with Winchester, after it had run through the streets for nearly an hour. Several people had narrowly escaped being gored.

The Charge Against Thomas Stanton on Trial in the District Court.

This morning in the district court when the case of Thomas Stanton was called, the prisoner was not present. Bailiff Coyne was sent to telephone to county jail for the prisoner. Still the prisoner did not come, and Bailiff Coyne was sent after him.

He soon returned from the jail and reported that the turnkey was not at the jail and that the prisoner had escaped. After quite a delay Stanton was brought before the court. He is a man of medium size, with light red hair, sprinkled with grey. He is charged with breaking into a box car on the Rock Island track, near Davis' elevator in North Topeka, on March 9, 1894. He was discovered by the people in the neighborhood and chased by them into a barn near there, where he was arrested by the police. The jury was empaneled. The receiving of testimony was begun this afternoon.

PRINCE OF WALES' PERIL.

Rescued While Chasing to the Railing of a Saloon Carriage.

LONDON, April 4.—The Chronicle's Paris dispatch says nothing but the vigilance of the engineer of the train prevented a fatal accident to the Prince of Wales at Marseilles station. The prince had stayed too long at the buffet and as the train started he clung to the railing of the saloon carriage.

The station master saw the danger and shouted to the engineer, who stopped the train. The prince arrived safely in Paris.

Shaved and Shaved Again.

Sergeant Steele arrested Wm. Ryan last evening and booked the charge of disorderly conduct against him. The man has been begging on the street for several days. Chicago Market.

CHICAGO, April 4.—Wheat made another long jump today, opening at 61½c as compared with Monday's close at 60½c. Crop damage reports and a lack of offerings caused the advance. Owing to the city election there was no session yesterday, but the trading on the curb showed a strong market and the advance today was not a surprise to the operators. The continued dry weather in Kansas and covering by shorts sent May up to 61½c before the advance was checked by some realizing, when May went to 61¼c, reacting later to 61½c.

Later wheat went up to 62½c for May and 64½c for July, an advance of a cent within a very few minutes. Crop damage reports were on the increase, and
